

How to Remove a Wall

Removing a wall is a way to manage which walls appear on your Home screen. Removing a wall does not affect the content or operation of the wall. A removed wall may be added back to the Home screen at any time.

To remove a wall, go to the Home screen and locate the wall you want to remove. Click the 'X' in the upper left corner of the wall. GoWall will display a warning message for you to confirm the removal. Select 'REMOVE' to confirm.

IMPORTANT
If you are the wall owner (creator) a trashcan icon will appear instead of the 'X'. **Do not** click on the trashcan unless you want to delete the wall (see 'How to Delete a Wall' in the Facilitator section). Deleting a wall is permanent.

To return a wall to your Home screen, rejoin the meeting using the Wall ID or the URL link used to originally join the wall.
